Miscellaneous Course Info -	Respiratory fit supplied air test for both SAR and SCBA respirators. **OSHA CFR1910.134** requires a fit test prior to initial use of a respirator, whenever a different respirator face piece is used, and at least annually thereafter. An additional fit test is required whenever employer or PLHCP observes changes in employee's physical condition that could affect respirator fit. An OSHA required questionnaire needs to be completed and reviewed by a doctor stating that a person can wear a respirator. GCSC offers a computer-based questionnaire and clearance on site. The code for this is 08RSPCLR. The employee must have this paperwork with them or be scheduled for 08RSPCLR. *If scheduling 08RSPCLR, please note medical clearance may take up to 24 hours.* All respirator fit tests are valid for one year and must be renewed annually.
